

Para
Parasitology 2nd term May 2020
Topics of students Projects

الفرقة الثالثة البرنامج العام

- 1- Eimeria of chicken
- 2- Eimeria of rabbits
- 3- Eimeria of sheep and goats
- 4- Eimeria of turkeys
- 5- Eimeria of calves
- 6-Toxopasma in cat
- 7- Toxoplasma in sheep and goats
- 8-Sarcocystis in cattle
- 9-Sarcocystis in buffaloes
- 10-Sarcocystis in sheep
- 11-Sarcocystis in pig
- 12- Babesia in cattle
- 13- Babesia in equine
- 14- Babesia in sheep
- 15- Babesia in canine
- 16- Theileria of cattle
- 17- Theileria of sheep and goats
- 18-Saivarian Trypanosomes
- 19- Venereal protozoan parasites
- 20- Flagellates of birds
- 21- Ectoparasites of fish
- 22-Food and water borne protozoan parasites
- 23-Obligatory myiasis
- 24- Myiasis in sheep
- 25-Myiasis in equine
- 26- Myiasis in cattle and camel
- 27- Flesh flies
- 28 – Family Calliphoridae
- 29 - Family Sarcoptidae
- 30 – Family Psoroptidae
- 31-Family Damodicidae
- 32 – Family Ixodidae (Hard tick) and related diseases
- 33- Lingetula serrata
- 34- rabbit mange
- 35 – sheep mange

- 36- Blood sucking mites**
- 37- mites of birds**
- 38-Pupiparean flies and related diseases**
- 39-Protozoan parasites of fish**
- 40- Blood sucking Muscidae and related diseases**
- 41-Sand fly and related diseases**
- 42--Fleas and related diseases**
- 43-bugs and related diseases**
- 44- Culex and related diseases**
- 45--Anopheles and related diseases**
- 46 - -Culicoides and related diseases**
- 47-Ectoparasites of equine**
- 48- Intracellular blood parasites of cattle**
- 49- Tissue protozoan parasites of sheep**
- 50- Screw worm**
